# Work Experiences

- Pet blog web-application
- Student Registration web-application
- Period Tracking mobile-application
- Market for Auction System web-application

## TOOLS

Figma  
Affinity Designer

## PET BLOG WEB-APPLICATION

Pet blog web application is to allow the users access blogs from others and write their own blogs to share documents, experience, knowledge in various topics that related to pets.

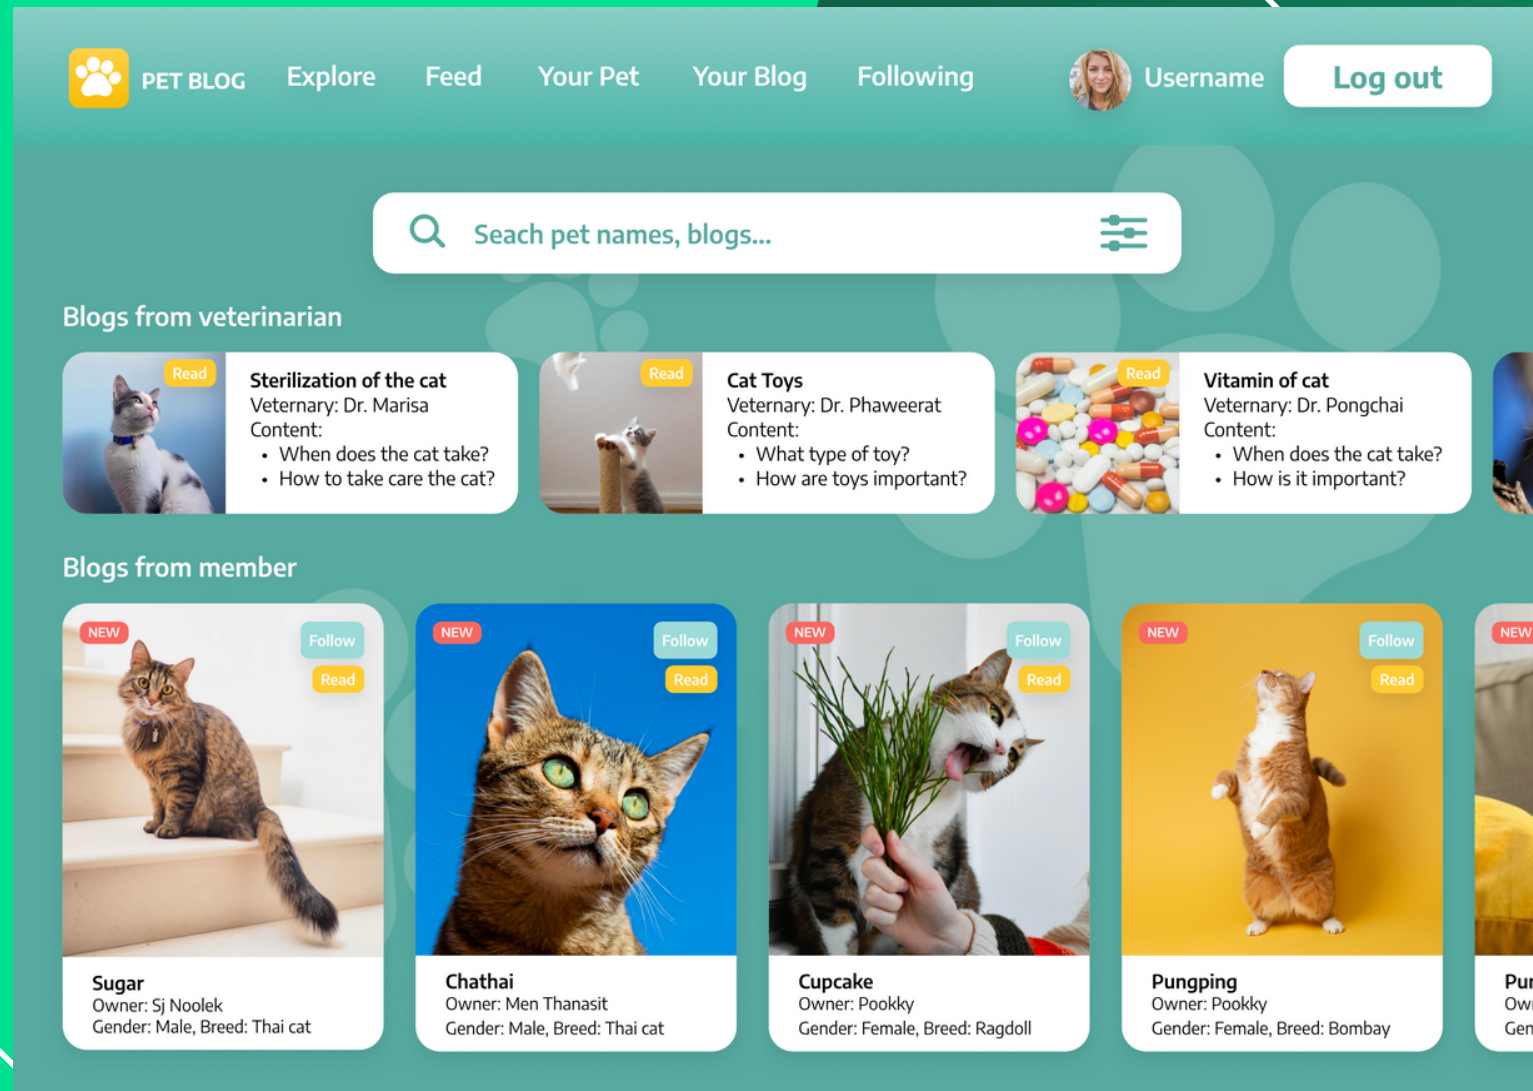

## STUDENT REGISTRATION WEB-APPLICATION

Student Registration web application is to allow the users register which provides information about what students are enrolled in each semester, including general student information collected.

## PERIOD TRACKING MOBILE-APPLICATION

There is a function to predict the menstruation of women each month and a function about the supply of sanitary napkins. Users of the application can donate money to purchase of sanitary napkins. And within the application there is also a function that tells you that Where is the free cloth distribution cabinet closest to the user? And are there any sanitary napkins in real time left?

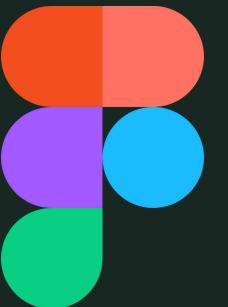

## MARKET FOR AUCTION SYSTEM WEB - APPLICATION
