EDUCATION

King Mongkut's University of Technology Thonburi Bachelor in Computer Engineer International Program

Attended from August 2019 to August 2022

GPAX 3.19

SKILLS

Software skills

- Figma
- Affinity Designer
- Adobe Photoshop

Abilities

Software engineering course, SCRUM

Programming, C, Basic HTML, JavaScript

Database SQL, Oracle language

SIRIPHORN JARISU

UX/UI Design Internship

ABOUT ME

Welcome! You can call me Noolek, and I'm third year student, studing computer engineer. I love UX/UI design, and bring an engineering perspective and problem solving approach to design, create products and experiences people use to love.

WORK EXPERIENCE

Pet Blog Web Application UI Design

Design user interface to access blogs from others and write their own blogs to share documents, experience in various topics that related to pets by using Figma – Project of software engineering subject, Using **SCRUM**.

Period Tracker Mobile Application UI Design

Design user interface for a whole mobile application by using Affinity Designer – Final Project of general education.

Student Register Web Application UI Design

Design user interface for a whole web application by using Affinity Designer – Final Project of Database subject.

Market for Auction System Web Application UI Design

Design user interface for a whole web application by using Affinity Designer – Project of software engineering subject.

[See detail in portfolio.](#)

CERTIFICATES

Online UI Design with Figma course, Skooldio

Efficiently use Figma in your design
Understand the basics of UI design
Organize your designs with Design System for a team.
Responsive design for various devices
Prototyping

Related course in computer engineering

UI Design
Software engineering, Water fall, XP, SCRUM

STRENGTHS

Energetic, Responsible, Active, Enthusiastic, Creative and Analytical mind
